Two Duels.

A duel was fought in Roxbury, Mass., near Boston, on the 9th inst., between two French sailors. Both were arrested and I hand you herewith, receipt for the same in those designed for the Gas, and that they will put up Fire Plugs and Lamp Posts at their own cost at the same time.

The pipes can be made as cheaply here, and by our own manufacturers, as at any point in the State. The tow is compactly built, requiring hut short main pipes. There is capital enough, and plenty of laborers. One thing only is wanting, that is the will. It is strange, that when an improvement is so much needed, and when there is a positive certainty that it will pay, and pay well, that we cannot have it.

There has long existed a public demand for an effective purgative pill which could be relied on as sore and perfectly safe in its ope-

A YER'S PILLS. For

Humors, Scrothia and Scarry, Colds with soreness of the body, Ucers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gent, Dropay, Grarel, Erystpelas, Palphation of the Heart, Painwin the Back; Stemach, Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of season. An occasional dose stimulates the atomical and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renevate the strength of the body, and restore the wasted or discussed energies of the whole organism. Hence an occasional dose is advantageous, even though his serious derangements crists; but manceessary dosing should never be carried too far, as every purgative medicine reduces the strength, shen taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to every body; and it is confidently believed this pill will answer a better purpose than anything which has hitherto seen available to mankind. When their virues are once known, the public will no lunger doubt what remedy to employ when in need of a cathartic meatier.
